

THE RESEARCH QUESTION

How can higher levels of facility design standardization be achieved?

THE RESEARCH PROJECT

Create a matrix encompassing a massive aggregation of existing data on life cycle cost estimation. Cross reference the attributes of each, validate these and identify any gaps that exist.

THE HEALTHCARE BENCHMARKING PROGRAM

A collaborative effort that allows healthcare owners, contractors and architects to compare several aspects of their projects to other companies' projects.

JOIN US

THE FACILITIES & HEALTHCARE SECTOR COMMITTEE

Entering project data into the benchmarking program is pretty easy once you've done it a few times. What used to take me many days only takes me three hours now because I've learned when, where, and how to gather and enter project data.

BENEFITS TO CII MEMBERS

Participation in the identification of industry-driven, collaborative research

Opportunities to develop leaders within your company

Access to executive summaries, reports, tools and research performed by CII

Implementation support results in organizational improvements to planning, execution and the delivery of capital facilities projects

Being part of the forum that sets standards across the industry

Networking opportunities at the CII Annual Conference where you will have access to academics, researchers and industry leaders

JOIN CII

CII'S LEGACY

CII increases the predictability, consistency and productivity of project performance.

CUSTOM SECTOR SOLUTIONS

Implementation, professional development, and research topics tailored to specific industries

CONTINUOUS INNOVATION

Increased shareholder value, return on capital effectiveness and efficiency, optimal return from capital projects
