

THE RESEARCH QUESTION

What is the current best practice for decision-making methodologies to proactively identify, evaluate and respond to the impact of regulations throughout the different project life cycle phases?

THE RESEARCH PROJECT

This research study seeks to assess and define existing methodologies used within the industry to proactively identify, anticipate and respond to pre-existing and ever-evolving regulatory requirements that are imposed on utilities.

JOIN US

THE POWER, UTILITIES & INFRASTRUCTURE SECTOR COMMITTEE

With the commodity price cycle downturn, most owners are now focused on improving the way they plan and execute their projects with a heightened goal of meeting planned ROIs. Implementing formal industry wide best practices from CII [is] a key part of meeting their planned ROI goal.
